Shaylin was one of my favorite people during college. We took several classes together, most memorably Advanced Writing. We bonded during those years over infertility struggles and she often expressed her great desire to be a mother. Her beautiful optimistic light helped me more than I can every express. May your family find peace and comfort during this time.

Oh Parker family, I was devastated to hear this news! My heart just goes out to all of you! Please give Shasta a big hug from me.

- Corrine Clark

My heart and prayers go out to her families. We loved having Shaylin coming over to our house to play and hang out with my girls. She always had a strong sweet spirit about her and got long with everyone and was friendly to all ages. Shaylin will be greatly missed!

Sorry for your loss she's an angel ■ God is taking care of her and she's watching her kids ■

When Shaylin was a teenager, we would often have her come and babysit our children. She was their favorite babysitter, and ours as well. I knew that she would one day become an amazing mother to some very lucky children. My heart goes out to her family. I pray the Lord will bless them, especially her children and husband, with an added measure of His love.

I am so sorry for your loss. I hope my memory of Shaylin makes you smile: my only interaction with her is the day I gave her a ride home from an after-school activity when she and my daughter, Lani, were in about sixth grade. To my best recollection, they came out of the school, each with her head covered by the project she had made out of paper; it surrounded the whole head, so as to block the eyes. I chuckled as I watched them clumsily make their way to the curb. They were laughing uncontrollably by the time they climbed into my car. Shaylin undoubtedly has left positive impressions like this on many people.

Our thoughts and prayers are with you. Our son Cory attended Pioneer, West Lake and Granger with Shaylin. (He was born July 10, 1987, about 27 days before her.) He is in Texas and texted us to say that for her to have died was "horrible" and that she was "always" a nice person.
