I was the HR Generalist for Trulite Glass in SLC for the last year. I worked remotely, as I live in Tulsa, OK but every time I traveled to SLC Tara was my "go to". She was knowledgeable and knew the ins and outs of the plant and assisted me with any needs I had. She was dedicated and worked hard. She always called me "hon" and I adored her. My deepest condolences to her beloved family and friends.

Sorry to learn of your loss. May she rest in peace.

Some of my favorite giggly moments were shared with Tara out back on break. I will always remember how she came to work with wet hair fresh from her shower and a smile on her face every day. She was my work mom like she served a “mom” role to so many others. She made me feel looked after and it’s because she is someone who

has always looked after others. The small moments in this life I was lucky enough to share with Tara were brief but impactful. Every time I bumped into her in life after I moved jobs was always a tickle, she is so loved and missed. Tara, I'll always cringe when I hear people reference someone named 'Tara' and they say it the wrong way… because of course the way we say YOUR name is the right way, and my favorite pronunciation. ■
