Butch had a winning smile, I am sure you had many wonderful times during 50 years of marriage, all my love to you, Linda. Please let me know if I can do anything to make this to time easier for you.

I loved this dear friend of mine! There wasn't a time when he would come into the office that when I asked him how he was doing, he didn't respond by saying terrible. I knew things were good. He always would talk about his wife and children. He loved all of you very much. I send my heartfelt condolences. David Cannon DDS
