My deepest sympathy and condolences to Creightons family and friends.. Creighton will be sorely missed

- Ian baker

Our sincerest condolences for the loss of Creighton. He was a very thoughtful, helpful, and welcoming person who could always bring a smile to our face. He will be truly missed. Passing on is never easy on the loved ones left behind, but solace can be had knowing his time came while he was he doing what he loved.

Tonya and girls, I'm so sorry for your loss of Creighton. May the Lord bless your family with comfort and healing peace. My heart aches for you and I send my prayers for you and your family. Love, Cindy Coombs Miner.

I got to know Creighton at the airport. Anytime my hangar door was open he would stop and say hello. Real nice guy. And you’re right he did love his family and talked about them often and how proud he was of his girls. I met one of the girls at the airport. Losing my wife unexpectedly at the age of 42, is the hardest thing I have ever had to deal with. But I know from experience that with the Lords help, the help of family, friends and time, you will make it too! Open your door and let the angels on earth help you along. Grant Haymore N862GH

We are so sorry for your lose, Creighton was a wonderful man that had a positive impact everywhere he went. We had many good times together at off-road racing events and have enjoyed watching him build his own company from the ground up.

I spent many hours on the phone and in emails with Creighton to get the machines he needed. His excitement to manufacture his parts in the USA and discussing our children will be my favorite memories. Our thoughts and prayers are with his family. Sherman McGinnis Absolute Haitian

I met Creighton in a parking lot because he had a cool Jeep. I was honored to spot for him in the first couple years of UROC and honored to call him my friend since that first day. Our deepest condolences to your family, he will be missed.

That friend that is always there when you need a friend, that was Creighton ! We spent many a night talking aviation in the hanger. Talking about dreams and possibilities. New ways of building flying machines . Creighton was born and raised with a huge heart like his dad Ray. Both Ray and Creighton offered help at a time when I had made some poor decisions. The wasn’t just an airport friendship, that’s how it started but they believed in me when others didn’t. I am so grateful to have had both Ray and Creighton’s support friendship and love in my life. I realize we can’t see each other in the flesh but the memories, and their spirit will always be in my heart. I am a better person having known both Creighton and Ray. My prayers are with Tonya and the family. The Kings are truly special people.

I'm very sorry for your loss and it was a shock to get this sad news. It was a pleasure working with Creighton over the years and he was so knowledgeable and fun to work with it didn't seem like work at all! He will be sorely missed but take comfort in the fact that he's in a better place now.

My deepest condolences on the loss of Creighton. I only knew him through Facebook and groups that we were both participating in. I know from reading his posts that he was a man among men. There are no words when you lose someone so young and so unexpectedly. Ironically, my nephew (age 37) passed that same morning. I will make it a point to Zoom in to the services. Please know you are in my prayers and I _know_ that everything we have learned about life after life is _true_. May you experience the peace that passeth understanding. Dawn Langston

Creighton helped and supported me a lot in the last several months. A giant for good. Thanks for the blessing of knowing you. We will all miss you.

I am so sorry for you and your girls loss. Please accept my condolences.

I first met Creighton at where else, Oshkosh. I knew he was friends with the Patey's, and his invention, GripLock Ties really got my attention. So I made a point of visiting his booth at Osh. It was interesting, no matter how busy he was he would stop and just listen to what you had to say. He didn't have a "pitch " … he just explained what GLT's were and why he created them. But there was subtlety, a way of connecting with people, in his way, that went beyond and formed connections and bonds with many folks. I shall miss him.

Prayers and comfort for you and your daughters. Creighton was one of the great people we met and saw over the years!! Chris and Janis Murphy

We couldn't attend Creighton's funeral or viewing because Byron had a medical procedure. We enjoyed a recent visit with him, & I enjoyed teaching him when he was young. He invited me to come see his ducks back then. It's nice to see he enjoyed teaching in church as an adult, the love for his family & others, & his accomplishments. We send love, peace, & comfort to Gaye, his family, & loved ones. Fly with the angels now Creighton.
