I knew Trudy as the little sister of her older sister Diane. She Truely was a fun lovig little girl. So thankful of the memories of her and her family. Hugs and prayers to her family at this sad time.

We met Trudy through Mike and watching our dog as we traveled every March to Mexico. Asked them to join us but Trudy reluctant because of distance.... Our puppy loved the time spent with Mike, Trudy and Max (Bullets dog). Trudy was taken enough of T-Bone that she painted a beautiful portrait of him and gave to us in a Special Trip to our Mountain home in Colorado. I just watched your mom’s funeral. It was wonderful and it was such warm and loving tribute to your mom. I loved your mom and her example of hard work and great talents. John and I had many fond memories of fun times together with your parents. May you find love and peace knowing she is at peace. I hope John is there to see her and your dad. They both called me when John died 17 years ago. I send my love and condolences to you as a family. May you find comfort in your Heavenly Father and Jesus Christ and their love for all of you.■
