Thank you to Tim, Mark, Cindy & Matt for speaking at your dad's funeral. Which we watched online. I know it is hard to see him pass on even though the last years were not the best. I have so many great memories of Wally. Of course, the hunting trips to cabin and working with him. I always remember most the family gathering at Grandma Henard's house. Wally & Lynn would always tease my dad. Then there was the infectious laughing. I know Wally is in a better place now and the brothers and sisters are together again.

That was a lovely service for Wally. We loved hearing the stories from the family. What a hard working, wonderful man he was. He had quite a life. The kids singing was precious. Arms around the entire family. We hope you all find comfort in the memories you have created together. We love you Mattie.
