

Dana Hawkins

February 24, 1951 ~ July 8, 2025

My sweet sis. You are larger than life and heart of my heart. I will miss you every single day until I join you. I'm grateful that you are released from your intense suffering. But I'm heartbroken that you are gone. All my love! On to the next adventure!

- Heather Sather

When I was young 7 and Dana was 2, I thought she was my baby and Aunt Gen would let me push her in a buggy. I also remember Dana didn't like wearing clothes and as a child she'd often go outside and strip naked. She had a cat she would dress like a baby and push it around in her doll buggy. Have so many great memories! Love her always ♥■

- Penny Vincent Stinson

So sad to hear this. Dana was always a bright soul. Her laughter and kindness was much appreciated. She always took time to visit and spend time with my mom and having great conversations with her. My love to her family, Lise

- Lise Letcher

I was the Practice Manager while Dana worked for Asthma & Allergy Clinic of Utah. We all loved her from the get-go and was so sorry when she retired. She was such fun to be with and was also a wonderful employee. We live in St. George, but would love to attend her Celebration of Life if we can. Please let us know when that will be.
