Dan, I will miss your visits spring and fall. I enjoyed the time spent on the hill watching the sun come up and the geese taking flight. I will miss your wisdom, your help and our time spent together. Take care my friend.

Prayers to you.

What a beautifully written obituary for a great man. Dan was a good friend from the minute we first met. I will miss our phone conversations and the days we shared in the field. Wishing Terri and your family peace and strength.

Danny will certainly be missed by so many family and friends. He had such a big heart and we always loved seeing him when he came up to Alaska to hunt. I’ll always be grateful that he offered such a rich friendship to Bill. R. I. P. Danny.

Terri, Glen I'm still in shock over your loss. He was one of my best friends and we managed to knock a few birds down, I know we kind of went different directions in our younger years but it was a special time to talk for hours when we got together. Rest easy and keep the wind at your back. We will hunt together some day.. Mick .
