Thank you for your blessings and guidance of family.

- Andy and Megan Lancaster

We loved your mom so much. We loved our lunches together at Chuck a Rama and at her home as she got too weak to want to go out. She was such a delight to visit with. We are going to miss her so much. We loved having her as our neighbor and friend over all these years. She always had a smile and was always so pleasant. She always told me she loved me (Vicki) when we left her home or talked on the phone. And, of course, I always told her I loved her too. We know she is rejoicing in heaven, being with your dad and all her family and friends who have gone before her. We will forever be grateful to have known and loved her and we look forward to seeing her again in heaven. Our thoughts and love go out to all of her family here on earth. We know you will miss her. We feel privileged to have known and loved her. What a blessing she was to everyone. Love and hugs. Mel and Vicki Short.

We are sad to hear of Darlene's passing. She was an amazing and dynamic person. She left a great family legacy. Our thoughts and prayers are with you. Grief is the price we pay for loving someone-and that price is worth it.
