What a beautiful tribute to your Father and Grandfather. Darwin was everything expressed as we listened. He was so family oriented and willing to share his stories. We send our love and know your sweet memories will give you comfort and peace.

- Cousin Dorothy and her daughter Karen

I have so many memories of grandpa and know he was such a special person. Thinking of everyone right now!

I am the youngest daughter of Darwin's cousin, Geneva Larsen Bee. I just wanted to say what a kind and loving man Darwin was. He traveled to Idaho to my Mother's funeral in the dead of winter through two often unkind canyons to pay his respects to our family. After that my husband and I always received a Christmas communication from him, and it was something we looked forward to. Bless this kind and generous man for keeping a connection with a distant relative. We are richer for knowing him. Bless all of your family at this challenging time. May your happy memories be ever in your hearts is our prayer.

I remember summers in Muncie, Indiana when we would visit Uncle Darwin and my grandparents. He had a scooter he used to get around town on. I will never forget his great sense of humor and his laugh. He stayed in touch with everyone in the family and sent me a printout of our family tree one year, not too long ago. I will keep that and hand it down to our daughter. Rest in peace, Uncle Darwin and thank you for your love and your many kindnesses.

While I mourn our loss of Darwin, I will always remember how much he valued all of us and did not get discouraged by adversity. A well-lived life to be remembered and celebrated.
