

David Blood Cook

August 26, 1932 ~ January 19, 2025

I worked with Dave for eleven years. Great draftsman, liked to talk, good man. I frequently told him I loved him. Many times we would argue over the direction of a plat. RIP Dave

- Michael Thompson

I enjoyed working with Dave during the 90s in BLM Cadastral Survey. I remember he always had this mischievous smile and dry humor. Even as plat drafting became automated Dave kept to the art of hand drafting. If you couldn't figure out an old plat's protracted acreage, you went to Dave. If you had a sudden sugar craving, you went to Dave because he kept a big bag of Tootsie Rolls in his desk. I am honored to have worked with him. May you rest in peace Dave, knowing you left your mark on Cadastral Survey. They just don't make them like you any more! My sincerest condolences to Dave's family and friends.
