I was so sorry to learn of Dave's sudden and unexpected passing. I have always enjoyed my association with Dave and even though we lived far apart and saw one another only on rare occasions, I looked forward to our conversations. He was always kind and expressed sincere interest in me and my family. His accomplishments are many and of great interest, but I have been most impressed by his strong faith and the manner in which he led his

life. We have been blessed having been raised by good parents and grandparents and their goodness is reflected in posterity like Dave. My prayers go out to Lori and the entire family.

I am a student at the University of Utah. I came into David's class to do a presentation for student elections. David was a very kind and ambitious person. He invited me to take his class many times. I am saddened to hear his passing and know he was an accomplished and great Christ-like family man while on earth.

I'm so sorry for your loss. Dave was my coworker for 4 years at the University of Utah, and was a friend and mentor. I'll never forget that when he heard me tells story about how my grandmother knew former Congressman Mo Udall, Dave gifted me a pin from Udall's presidential campaign. Or the time he learned I was going to be alone for Thanksgiving and invited me to celebrate with his family. I wish I could continue to benefit from his kindness, his wit, and his experience. I will miss him dearly.
