

Delbert Earl Lambert

October 12, 1931 ~ September 16, 2020

Del was a Home Teacher who visited our home regularly for many years and I remember having lots of interesting conversations. When I learned that he and I had also spent our childhood and youth in the same nearby neighborhood, our conversations became even more informative and enjoyable. Recently, however, it has been distressing to observe his declining health so being able to see the nice photograph of him is a very welcome sight.
