So very sorry to hear of Dennis's passing. Dennis and I met in the 70's, as we were both new recruits at the CPA firm in Salt Lake City, now known internationally as KPMG. We didn't really fit the mold of most conservative CPA's, so we became great friends right away and hung out together in our free time. We both loved playing tennis at the Sports Mall and I don't ever remember beating him personally. However, he did LET me win a men's Tennis Tournament there by choosing to NOT play in the tournament. We both lived in the Sugarhouse neighborhood of Salt Lake. I eventually bought a home and moved into the Willow Creek area and shortly thereafter Dennis bought a lot about 5 houses away from my home and built his current home. We had some great times together along with other friends until I moved to St. George about 25 years ago, but still stayed in touch. My sincere condolences go out to the Nasella family and he will be missed.

All of us who went to Cal Western with Dennis send our deepest sympathies to his loved ones. Dennis was a great friend and I will cherish his memory. I loved competing against Dennis because he was a stanch opponent. Victory against Dennis was rare. He loved to win. I will fondly remember all the joyous times spent together. Rest in peace my friend.

I am so very sorry for your loss., gone much too early. Dennis and I were friends growing up on the East Side of Chicago. I Loved watching him play baseball and of course relaxing at Cal Park and the beach there back in the day. He was always an inspiration. His spirit will be missed by many. Many wonderful memories for all who crossed his path. Lots of good memories from those
