Dear Bob and family We were so sorry to read of Diana's passing. She was always so fun and interesting to be around. We have such fond memories of medical reunions where we would visit. But we especially remember the fun times we had following the Runnin Utes when Rick Majeris was the coach. We remember being with you at the Pond when Utah made it to the Final Four and eight adults crammed into a small car to celebrate. GOOD TIMES! We send you our heartfelt love and sympathy. I am so sorry to read of Diana's passing. I have such fond memories of our association in East Millcreek when our children were small, our work together in East Millcreek PTA and taking tap dancing classes at the old Sherman school and exercising at The Ladies Club. I still wear jewelry made by Diana. She was a woman I always admired.
