

Emee Lynne Drews

March 31, 1978 ~ January 16, 2026

Emee Drews Morgan, returned to live with her beautiful mom on January 16, 2026.

Emee was born to the most loving parents, Scott and Marilyn Drews, on March 31, 1978. She was the love of their life for 5 years, then the rest of the sisters arrived to rock her world. She loved her sisters fiercely, always being their #1 fan. She was their mom, always looking out for them and worrying about them - and that continued throughout her entire life.

She loved her time at Southern Utah University, where she found her life mission in Social Work. She helped the most vulnerable people, which aligned perfectly with her kind, loving and generous nature.

Emee met her best friend, Howard, and was married on October 16, 2009. Together they built a wonderful life. They always found themselves in the mountains or on the beach. But most importantly, they just enjoyed being together. Howard meant everything to her.

Emee had the ability to make everyone feel special and important. She was our “North Star.” Never wanting to be the brightest star in sky, but was a consistent constellation that never burned out. She was always positive and had this way of always being concerned about others. She loved everyone she came in contact with.

Her nieces and nephews LOVED their aunt Emee, and looked forward to her ornaments she would give each of them every year on Christmas. We know these ornaments that fill our tree will remind us of her every year, the beautiful life she lived, and the amazing example she was to all of us.

There is a quote that says “people will forget what you said, but they will never forget how you made them feel.” Emee made us all feel like the most important people in the world. May we carry this on in how we choose to live our lives.

We will love and miss you forever!
