What a precious opportunity I had spending time with your family. I will always cherish your family

- Dale Flinders

Don will be missed. He was one of the first neighbors we met when we moved in the ‘hood 34 years ago. We always appreciated how he kept his eye on the entire neighborhood and looked out for us all. We also especially appreciated his installing the mailbox and newspaper stand for all of us when the old one fell apart. He simply did it because it needed to be done.

I was so sorry to hear about Uncle Don. I have great memories of going to your parent's house as a child. I recently lost my husband Frank, so it is sad losing someone you love so much. I have had two strokes, so don't drive great distances by myself. Hugs from Aurora. - Kathy

So sorry for the loss of your Dad, he was a great father to have raised such loyal and great sons! May he rest in peace in heaven.
