You were the most beautiful person inside and out. Some of my first memories of you are when Dad was ordained a High Priest. You and Dick took him out and bought him a suit. He wore that every Sunday until he quit attending church. It hung on him like 5 sizes to big. Then as I returned back to Draper 2nd ward we got to know each other better. I never knew a more put together gal. You always looked great in red. But your kindness and love extended to me and my family. The beautiful veil you made me and I will cherish. My children love the blankets you made them. Thank you for being a wonderful friend to myself and my family. I am truly grateful for the friendship you and Mom had. She loves you so much. I am sure the two of you are having a grand reunion. Thank you for your Christ like example.
