

## Dr. Kenan Andrew Ince

*April 15, 1989 ~ June 13, 2023*

---

To their family, I am so, so sorry. I am a compsci major that Kenan taught about half a year ago, I spent hours with them trying to rediscover my love for math after it was crushed throughout high school. They were my stepping stones to slowly leaving the closet as a trans man and one of the first people I told. I had a chance to grade for last semester under them that I had to turn down, and that is a huge regret for me now. Kenan was truly a wonderful person, they had genuine and true love for math and their fellow people. This is a cruel ending for someone so good.
