

Edith Inge Neumann Baker

March 10, 1934 ~ February 1, 2024

Lorraine, Danielle and Melanie, It is with my deepest sympathy that I want to tell you how sad I am for the loss of "our" sweetest Edith. I'm also extremely joyous in my heart and soul that God has accepted her a new, wonderful being into his kingdom where she now shares an eternity with her soulmate and true love, Jack. It was an honor to care for and love Edith in her last 4 1/2 months as her hospice nurse and I am thankful for each and every blessed moment that I was able to spend with that sweet woman. Whether it was laughing at Bailey and Jackson with her, spending time exploring her German heritage she was so happy to divulge in or snuggling up with her with her on the couch with a snuggly, warm blanket that she and I so often did. To know that on her last day, she SMILED so much and laughed as we had not seen and even made us laugh with her bubble blowing. I shall never forget any of those memories. She impacted my heart and my being in a way that I cannot explain. For the love of Edith, Love, Kelley
