

Elaine Fischer Stanley

September 25, 1935 ~ January 25, 2025

I was also a victim of Elaine's love and kindness. I remember spending a lot of time at the Stanley house growing up. I also called her mom or Ma Stanley. She will be missed but she can still be seen in her children and their families. I will never forget the impact that Elaine and Lynn had on me. God bless you!

- Karl Grubbs

Dear Lynn, We adore your beautiful Elaine. We will miss her, but smiles abound when we think of her great legacy. Her love of family, passion for making holidays magical and fun, desire to serve and touch others, and strong and personal connection to the Savior, are all things that we will remember with fondness. We are better people for having known her. An example to all.

- Jim and Deanna Williams

Aunt Elaine, you were always a favorite aunt. So loving and kind to everyone. I have many fond childhood memories with Uncle Lynn and Aunt Elaine's family. Your loving family will continue your legacy ■■■

- Karen Fazlurrehman

my condolences, I'm really sorry to here that.

- Matt Aspittle

Grandma you are so missed. Thank you for loving my kids so fiercely! We loved surprising you guys with visits. And the kids always enjoyed the toys you had. Thadeus even remembers the cars you had him play with last time we were there. We love you and will miss your enthusiasm for each new grandkid that came into the family. Thanks for letting me always stay in your basement when I needed a place to stay while visiting. You always took care of me. And your Easter egg hunts were so fun! Thank you, love you, miss you.

- Coryne Walston

Gary, Sue, Kim and Jane, thank you all for your heartfelt and uplifting words at today's service — what a lovely and fitting tribute! Sorry for your loss, but also grateful for the memories of having been blessed and lifted by the love, warmth and goodness that your mom not only emanated but instilled in others. "Well done, thou good and faithful servant" indeed!

- Cary Jensen

Uncle Lynn, my heart was sad upon hearing the news of your beloved Elaine. There are so many memories. The epic motor home trip we took to Florida, hearing the sad news at Mt. Rushmore from the ranger, before cell phones, of what happened to your son(s). It was tragic and sad. I assume you still have that trophy that was taken out of the grave against Indian tradition and given to you. The trip!! I had never heard the expression, "Well, guy" or "but guy" and I'm like who is this guy fellow? It was an expression of frustration mixed in with teenage brain cells. I deny any kissing cousin going on. Or the time we were at a dump station and my dad Burton didn't know it was full. You guessed it, when the valve opened up, the waste went all over my dad! Gary was there in shock and hesitated to laugh, when Burton looked at him and said his famous line, "If I hadn't had my mouth open, it would've hit me in the face." Thus the term the sh!tter's full! Elaine was always so kind and laughed and cried I'm sure at our shenanigans.
