Such a great loss. I knew Betsy as a wonderful friend to my daughter, Ann. Betsy will be missed by many, many people.

Betsy ■ I was blessed to be your housemate at Colorado College when you dated, Colby. So many mornings he brought you homemade porridge for breakfast and said 'hello' to me en route to your room. Colby always had the joyful glow of anticipating your presence. Your presence brought us all up a notch, helped us feel alive and loved. Recently you gave me amazing advice. I shall heed your counsel and be the better for it. May your spirit soar, beautiful Betsy. Sending comfort and joy to you and yours as we all walk this walk of grief, and you shine your light from afar and in new ways. Love you, honey.

The world's light dimmed a little on December 10, 2022, when Betsy Smith left it. I believe, though, that the stars are shining brighter now because she is among them. May all those who miss her embrace the cheerfulness, kindness, and hope that Betsy brought to our lives.

I am so sorry to learn of the passing of my friend Betsy. Although I haven't spoken to her in many years, I had the good fortune of working with her during our senior year in high school on speeches for our graduation. As everyone who met Betsy knows, she was an unending source of light, joy, and energy. Her mind moved a million miles an hour and I was usually so busy laughing at something she said that I missed the next 4 or 5 things that came out of her mouth. My deepest condolences to her family, especially her beloved daughter, of whom she spoke in glowing terms at our high school reunion, and her many friends and loved ones. She was a force for good things in this world and we are all poorer for her loss. Peace, Betsy. You saw furthest because you flew highest.

The Martinez family sends out condolences ❤■ Betsy took in our mom when she barely spoke any English and was new to this country and gave her an opportunity to work for her 3 kids. She treated me and my mom like family and we are forever grateful for her.

Dear Betsy was a source of love, laughter and joy for me during our years together at Colorado College. She and her family taught me how to cross country ski and we went on so many wonderful adventures together. She hosted my sons and me in SLC when we came out to ski just a few years ago. I will forever remember her bright blue eyes and how she lit up the room with her sweet laughter and curiosity about the world. I'll miss you, Betsy.
