Im so grateful he is with the Lord and he's family and friends beyond the veil..I believe he will still be watching over us..

I'm sorry this is so late in coming. I'm sorry for your loss. I knew Jack from a landscaping direction, and he was a very knowledgeable, hard working man. Salt of the earth. Everything that comes with that phrase, he was. I had the most interesting conversations with him, and even if our viewed didn't always align, he was a very well informed gentleman. He will truly be missed
