I have much respect and admiration for Gene and the life that he lived. As a county inspector, I always appreciated the honest and professional workmanship that Gene and his company provided their customers. Then as an employee, I got to know Gene as a genuinely kind, family loving, hard working and generous person! Rest in Peace - Richard Rodriguez

Gene is one of a kind, great and good in everyway. We will all miss him very much. He loved people especially little children and loved making them happy. One of his joys was to watch as they smiled and laughed as they rode in "Thomas the Train" which he arranged to be present in his and Elaine's wonderful large back yard along with play ground equipment and a pool for everyone to enjoy. The Young home became thee place for one and all to enjoy both inside and out which they freely shared. A home especially designed to make happy memories for all of us. The more that came the more they enjoyed sharing their home and more especially their love, making all of us all want to be better. May the Lord bless you in this time of sorrow and may you know of the many prayers of gratitude for your wonderful example

Thank you for helping to shape Granite and for your influence with us Kids growing up in the neighborhood. A tribute from our family to both of you. Never talking about it just doing it. Hopefully we can live up to your example of just getting it done. Linda and Jim whitmore

Dear Elaine and all the family, I was so sorry to hear about Gene's passing after such a freak accident. My prayers are with you for your peace and comfort. I pray that you may have the sweet reassurance that the process that we call death, is the entrance into the eternity and is like leaving a room and entering into the next room. May God be with you, Love, Yvette Longstaff
