To the Barson family, my sympathy to you all. I hope Ken did not suffer and was able to leave this earth peacefully. Toni

My thoughts are of Ken, Margie, and family. I spent the latter half of 1960 in Oahu, HI (Kailua) as a 6-year old beginning 1st grade, much of that time with Ken, Margie, and Altona (Margie's younger sister). I have indelible memories of Ken & Margie and Oahu and the great times we had there — I've returned to the Hawaiian Islands 40-50 times since. In the years that followed, I had multiple opportunities to visit with Ken and his growing family., I have fond memories of Ken as a loving, adventuresome, and fun person, as well as Margie and their family. Wishing You all the best at this time and always. ■

I first met Ken and Clyde when we all attended BYU. Our entire apartment looked forward to Ken and Clyde's visits. I again enjoyed his association at the single adults activities. I loved his story of the buffalo, what a treasure. He was a true gentleman and a great friend. I am so glad I had the opportunity of knowing him.

Dear Ken, You have been such a great friend . I have loved the time we spent together and the great time dancing at the singles and other dances. I will miss our talks in the mornings when we would talk on the phone while I was

walking in Lehi. I always knew you were there as a support and a friend. You are a great example of a true caring friend. It will not be the same on Thursday nights with out your sweet smile and dancing spirit. I can’t wait to see you again and meet your dear wife.

Ken was always so friendly to everyone at the Mt. Timpanogos Single’s dances and activity. He greeted everyone with a smile and was appreciative to the committee members for our efforts. Whenever he saw a lady sitting around a lot during a dance, he would always go over and ask her to dance, even when he was tired or in pain. I greatly admired him as a follower of Christ and one who showed kindness and service to others. You were all blessed to have such a special father and grandfather!
