I miss you thanks for the best seven years, and the opportunity to serve you everyday. No matter the expense, risk, loss .. you always came first in my life and I hope you know how much I love and respect you. Now get to work! Yes, we will take care of mom and treat her like a queen. We learned from the best. Xo

Dearest Nadine, We were so sad to read Gary's obituary last night and saw that we had missed the viewings and funeral. I am so sorry that I wasn't there and able to see you in person. You are such a wonderful person and special friend. I think of you often. I was so glad that I was able to work with you in the temple. Those were choice experiences. I was so glad to find the funeral online and LOVED watching and listening to it! What happy special tributes from your delightful children. 111% Gary!!! I loved hearing of his fast walking and his 'everyday' push-ups and all of his success motivation goals. And of course, his powerful testimony of Jesus Christ was always so evident. It was so wonderful to learn great details of his mission (s) as well as his life. He was a true mover and shaker. We send our sincere condolences at the temporary loss of your sweetheart. And rejoice in the knowledge of your eternal relationship because of our Savior Jesus Christ. May Gods choicest blessings be with you at this hard time. Love you so much. Win and Eddie Peterson.
