

Gary Gabrielsen

January 21, 1931 ~ July 25, 2025

I am so sorry to hear of Mrs. Gabrielsen's passing. She was my home economics teacher at South Jr. High in Boise, Idaho back in the 1980s. She has been in my mind most of my life for all the things she had taught me and was one of my most favorite teachers. I always wished I had told her that and regret it has taken me so long to look her up. I am just so saddened to hear this news but so glad to hear she had such a long meaningful life. There was so much more I wish I could have learned from her. I have always regretted that I never took her sewing class. I still have yet to learn how to sew on a machine. But I am so grateful for all I did learn from such a kind, caring, beautiful lady. She is definitely missed and made a difference in this world probably more than she realized. I will always remember her fondly. Deepest and sincerest condolences to her family.
