There simply aren't words...I remember the day Gary moved in. He became an instant friend to our Mom and Dad and the rest of us - my brothers Brad and Randy and sister Susan. He was and will always be "family". Most major life events we shared with one another over the hedge which eventually turned into the chain link fence between our homes. My heart aches for Sharon and the girls. He will be deeply and forever missed. I know Mom and Dad were there to greet him with open arms and smiles that stretched from cheek to cheek. Until we meet again....rest easy. Your work here is done. Love you always....Cheryl
