

George Sterling Spencer II

August 26, 1932 ~ December 19, 2021

I have known George for over 40 years and have thought of him nearly every day over those decades. I will miss his presence and will continue to think of him. He is a remarkable soul. A man of patience and integrity. He was a model of a life well lived. There is so much that could be said of him and the model of understanding, forgiveness, toleration and moderation he fostered. I encountered many people in my seven decades on this earth, but George has been a most special individual and a blessing to have known.
