So sorry to hear about Georgia

- Becky Davis

My heartfelt condolences to Gloria and her family. Georgia was deeply loved and well-cared for. I got to know Georgia better this past year and always felt uplifted after being with her. She had a gift for spreading joy just by being around her. She loved to make people laugh and she loved having birthdays. I treasure the time I visited in her home and we danced and sang to the Beatles song , "Birthday". She knew how to have fun. Her picture with this obituary aptly reflects the pure unconditional love that spills from her heart to others. Georgia lives on in our hearts.
