I worked with Jerry for many years. He had a heart of gold! I loved hearing his stories of when he was with the Boy Scouts, especially teaching survival in snow caves. He was also very very generous! Out of his own pocket he helped me financially to supply a young man who needed a suit. This was the kind of man Jerry was. He wanted to always help others. His memory will always be a blessing. My heart and prayers are with Barbara and his family.
