- Chris Kaufman

As president of the board at Hot Springs Village, just want to express our condolences to Gerri's family and let you know that in all the hard work she did for years and years at the resort, she affected hundreds of lives. The resort became home away from home, almost a sanctuary, for many owners. Part of that was coming to the resort and knowing Gerri would be there.

I have know Gerri most my life when my parents bought into the condos from almost day one. Gerri was always there to welcome me and just chat when ever I came to the condo for my week.
