To my dear Uncle Herb, I spent a good part of my childhood growing up with you around and I have nothing but memories filled with laughter and joy. You were curious and clever, always having an explanation for how anything worked. Your humility kept me grounded and your sense of humor kept me afloat. From catching moths on the back porch to searching the stars for otherworldly intelligence to listening to you recount stories from your own life, I always had a grin from ear-to-ear when I spent time with you. We will all miss you so terribly much but our memories of your presence will never be forgotten. With all my love, Charles

We are ever so sorry for your loss. I thought Herib was a very nice and thoughtful man. You could tell he loved the grandkids by the pictures on Facebook. I would have attended the service but with my health issues was unable. Love, Kathy and Dennis Polster
