I honestly don’t even know where to begin… My heart is heavy, and this pain is deep. Losing your brother feels like losing a part of our own family because he wasn’t just your sibling, he was my own too. We shared memories, laughter, and moments that can never be replaced. Please know that you’re not going through this alone. I am with you, fully in the silence, in the pain, and in the confusion that comes with a loss like this. Your brother I believe lived a life that touched everyone deeply, and his absence has created a space nothing can fill. I’m praying for strength for you, for the entire family, and for everyone whose life he impacted. If you need someone to talk to, to cry with, to

sit quietly with, or just someone to lean on, I’m right here. Always. May God give you comfort, may His presence surround you, and may the memories of your brother bring peace to your heart with time. You’re not alone — I’m with you through it all. God bless us all, Amen Once again, it's your beloved brother: Ikenkwalu Arinze Franklin

To Ike's family: I knew Ike through his work at RevRoad and then at Astra. He was a bold, fearless, and tireless leader. Even more, he was a loving father and son. I will miss his magnetic personality and love of life and cannot imagine the gap he is leaving in your lives. As an extreme optimist, he would, I imagine, assure you that time heals all would and that you will soon look back with joy on the times you spent together. I pray that is true for you all. With deepest condolences, David

- David Carlebach

I am sorry to learn of Ike’s passing. I enjoyed being around his bigger than life personality. He certainly was able to brighten any room or gathering with his big smile, his enthusiasm and his optimism! He was a distinguished alumni at Utah Valley University where my Institute is located and was a great example to the students there. Although I only worked with him briefly he is someone that I will always remember! Jeanette and I offer our prayers and best wishes to Ike’s family!■

- Gary Herbert — (17th Governor of Utah)

The news of the death of this young chap Nnanna came to me as a rude shock. This was someone I was with in June when they came around for the burial of their father ,Prof Ikeme. Nnanna was too happy ,too jovial ,too sociable and too far away from death. Why he died still beats me. I am so so sad and still in shock. May his memory be for a blessing.

- Chinedu Nzeribe

I pray that you all find the spirit of togetherness and strength as you go through this painful loss. As God looks as him may you all look out for each other and find solace in the moments and memories that you have of Nnana.

- Akosa Nwadiogbu

Deeply saddened by your passing ike, but I am been consoled with the fact and testimonies that you have lived a good life. To the immediate family, pls accept my sincere condolences as Ike was my course mate while at Air Force Military School Jos and remains a proud member of 96 set. Be good ambassadors like your father and keep making him proud. Adieu Brother till we meet again. Ogbe Emeka Provost Marshal 96 set AFMS Jos.

- Chukwuemeka Ogbe

Ike was one of the smartest guys I knew. We were both in Yellow/Puma Squadron at AFMS Jos, and spent a lot of time hanging out, doing homework, and prepping for exams together. We used to compete, comparing scores after every test. I still remember JSS1 year, when he lost so much weight that he told me his mom could barely recognize him at the airport picking him up. He's also the reason I joined the debate team. He convinced me I had it

in me, gave me the confidence to try, and I'm grateful for that push to this day. When I got to the States for college in Florida, we tried to stay in touch, though only sparingly. I wish I'd followed up more over the years. He'll be missed. Rest well, Ike. Sam Elekwachi, 96 Set AFMS Jos

From Snow college to USU to UVU back to USU and finally to Notre Dame, Ike was my favorite teacher. I attended one of his evening microeconomics classes. He was a good teacher and always dressed sharp. He gave that class a lot of respect by the way he showed up to teach. I'm was sorry to see he died. I'm certain that has caused many tears. Life is so difficult sometimes. I learned about Ike's passing just now. I remembered his teaching about how economists try to measure and maximize joy, they called it utility. I run a charity in Ghana and I try to measure and maximize impact. Thinking about the parallels of joy and impact I felt grateful for what Ike taught me and googled him. I hope you are able to maximize the joyful impact he brought to you. I'm certain it wasn't all joyful but I pray God has watched over you and your family and has helped magnify the joyful moments.
