

Jacqueline Garber

November 13, 1949 ~ December 7, 2025

Always loved Jacque. When Lee and I moved to Midvale she was our first child's care giver. Her mother was my favorite aunt. Growing up she was so kind. I send my love and prayers. I had not heard of a time of change in her health. Love ❤■

I tried to send a message earlier today, but I don't think I actually submitted it. If this is a second one, just know that it comes with twice as much love. Jacque was such a sweet spirit, and we had such fun teaching together for many years. Jacque was always very organized, and she helped and taught me so much in my teaching and also in my life. I loved her and will miss her so much. Errol and I send our deepest sympathy to Bill and all of her wonderful children at this very difficult time. She will leave a big hole in the lives of all those who knew and loved her. She will be missed so much!!!

Dear Sister, it is so sad to have you leave us. We all love you so very much! You were a delight to every lucky person who got to know you! See you soon!! Patric

Jacque was one of the kindest persons I have known. We were in grade school together in Mr. Johnson's class. She was one of the smartest kids in the class. We reconnected after we were married and both moved to Sandy and have been in the same neighborhood for almost 50 years. It was a pleasure serving with her in church callings.

She was always so organized and so compassionate. We shared the same birthday month and she always brought me something for my birthday. She has always protected the weak and the underdog. Her students loved her. I don't know of anyone who has ever said an unkind word about her. She is one of a kind. I will always love her and miss her.
