

James Elwood Boone Johnson

April 26, 1938 ~ February 8, 2026

Condolences to the family, Jim will be missed he was always ready with a compliment for the Sunday school class I taught.

- Melanie Ford

Brandee and Jaimee, Your dad was such an incredible man. He was always so kind, complementing me almost every time he saw me. When I would see him I would always call him "young man." He would smile, laugh and then say something funny. When he was teaching Sunday School, he did it in such a way I understood so much better and I learned a lot more. He always made it spiritual in his own way while adding a touch of humor. I will never forget the generosity of both of your parents. Our power went out and they offered to have Linc and Kam stay with them until it was able to be fixed. While they were at their home, my boys helped with some things your parents needed help with, then your parents took my boys to Leatherby's. They had such a wonderful time with your mom and dad. They will not forget that special day. I want you to know my great love for your parents and your family. You have all been so special to me. I pray for many blessings to be poured down upon all of you. That you may feel peace, comfort and love during this very tender time. I send my deepest sympathy and love to all of you.

- Kathryn Murray

It is so difficult to lose someone that you love, but to lose both your parents in such a short time is tragic. My sincere condolences. My husband and I always enjoyed being with them.

- Marsha Larson

I loved Uncle Jim. So many memories. I'll never forget how he used to "pants" all of us kids. Then we got big enough and we pants him. He was always a good sport. Hugs to all of you. We'll miss him.

- Eric Martineau

Jim was one of the first friends I made going into the Ford/Whitehead family. He was always so kind and caring. My kids loved him and talked about him frequently. His little buddy, Ivan still asks and bring him up as uncle Jim, my favorite uncle who has horses. He and Mary Jane both are deeply missed in our family.

- Michelle Johnston

I remember as a kid that Jim was a health nut. If it has anything sweet about it he would not touch it. At one of the BYOM, bring your own meat, parties Jim and Mary always had for family, I remember all of the older cousins/nephews/nieces were trying to get Jim to take a bite out of a donut. People started pulling out cash and waving it in his face. It seemed like there was \$500 on the table for that bite. But He would not budge. He was stubborn man of principle and could not be bought who always had a snarky come back to anyone willing to try him. It was a blessing to have him as a great uncle.

- Davey

Learned just today about both Jim and Mary Jane passing away. I'm saddened to learn of his passing but grateful he can be again with his true love. What a great leader, wise man and loving dad. Brandee and Jamiee and family - my sincere condolences for all you have gone through these past several months. May there be love, peace and comfort with your loved ones in all the memories, laughs and tears. David Cooper - Twin Falls, Idaho
