The day I met this side of my family was one I will never forget. The wonderful stories that I heard and the loving family I was introduced to. I'm glad I got to share just a little bit of time and history with this beautiful soul and his family. My deepest condolences to each and every one. Scott Caviness - Grandson to Helen Gustavson

What a beautiful obituary, though I never knew him I can see what a amazing person he was. I'm sure it was a beautiful welcome when he met his sweetheart on the other side. Know that this life is just a small stepping stone in our eternal progression, and you can be with them again someday. Our thoughts and prayers are with the families of those left to mourn the loss of a great man. Love the Acey's

Jim meant so much to all of us. Our mom was so proud of him in every way. He was attentive to all of his brothers and sisters as well as Grandpa and Grandma. We will miss him so much. The end of an era.
