We loved Jane so very much for so many years. She showed her gifts and talents to us so many times. We are so happy to have seen her a few times over the past few years, and it was always a joyful experience to say hello, to see her smile and remember her beauty and service. To her children, grandchildren and great grandchildren - we loved her and love all of you. You are our cherished nieces and nephews. We know you will feel her presence even now. Love, Val and Nancy Swenson
