What a beautiful lady your mother was! She always had a smile on her face and made everyone feel important and like you were her friend! May your family be blessed with peace and comfort at this time!!!

Becky your mother sounds like a wonderful person! I'm happy for you to have such a mother! I'm sure you will be missing her but cherishing her! My thoughts and prayers are with you! Lots of love, Dori Hall your temple friend!■■■■

I loved being Jeanne's neighbor and friend. She was always so positive, and always made me feel good whenever I spent time with her. I'm looking forward to seeing her in the not too distant future where we will laugh over the good times and her last six pack of Dr Pepper. ♥■

Dear Becky, I'm so sorry to receive this so late. You certainly have had many tests and sadnesses come into your life within the last few months! You are such a dear Temple friend. I hope you have found comfort during this last time. I can remember thinking to call my Mom with a questions - only to remember that I couldn't reach her for a while after her passing. My love, Lyn
