JoAnne Golder Hopkins

December 23, 1935 ~ February 14, 2022

James and I are thinking about you in your time of sorrow.

- Laureen C. Royle

Such wonderful memories of the Golder family! Loved Joanne and Margie, Joyce and Gloria. We lived next door to each other for many years, and I practically lived with them! They taught me how to put on nylons and keep the “seam” straight! To hold shredded wheat under hot water before adding sugar and milk, so much better. After Joanne got married, I tended their kids many times in Rose Park. I am so grateful for the many memories. My regret is that we didn’t stay in touch. Love and prayers to her family❤■■■

- Nancy Marsh Catmull

It seems like yesterday Joanne and I were going to ceramics class making holiday items. I remember taking on a Christmas village that I could not finish because Codi’s birth came early. Joanne finished the village for us. We later went on to make dolls. Joanne and Dewayne were wonderful parents and grandparents and we enjoyed many dinners and a special trip to Disneyland. I am grateful for all the kindness and the memories. May all those memories bring you peace and happiness.

- Tami Hopkins

Have great memories of all the Hopkins family when we all lived in Rose Park. Joann introduced me to ceramic art..had fun taking classes with her. Sending love to all of you. Larry and Karen Hardwick.

- Karen Hardwick

I can not express how deeply grateful I am to JoAnne and DeWayne for the positive and sensible influence they both had over my life. I love them both along with the entire Hopkins clan. I am humbly appreciative for everything

they have done for me over the years. She will be missed. God bless you all. #6

- Robert

Sending love to the Hopkins family. Momma Hopkins was a second mom to me growing up in Rose Park. She was always so kind and welcoming to her home. The many band trips her and dad chaperoned are a true treasure I will always remember.
