What a beautiful tribute to a wonderful, strong man who has gone through so much. My kids and I are thinking of all of you and praying for strength during this challenging time

John, you will be missed. You were exactly the man and example in my life when I needed it most. I will always remember the kind words of encouragement and the. “Can do attitude.” Your love and spirit flow everyone that you touched in life. Until we meet again, my brother.

Always a twinkle in his eyes Happy place now and forever!

Such sorry news. My deep condolences to all the James family. I only knew John as a precocious 11 year old boy, but remember him fondly. Hold Tight.

I wish I got too see you again my friend. Thanks for helping me get through the hardest time of my life.

- Vincent Vespe

My brother from another mother, you will be greatly missed, by many. The impact you had on people is something that would take me multiple lifetimes to accomplish. We'd have 7+ hour long phone conversations and only stopped because we realized we needed to get to bed and rest, otherwise I'm sure we'd carry on around the clock. You

were the last friend left that I could do this with and now I'm lost, knowing I left you hanging on our last text message thread. I'm sorry for that, brother. You helped me tremendously when I was struggling with the passing of my father, for that I thank you, as I may not have been around to marry my beautiful wife and baby to follow. I love you, John and I'm deeply saddened by your passing. I know we will meet again and may the force be with you! Until next time. Best, Anthony
