

John Watson White

March 28, 1948 ~ June 27, 2024

The world will be a darker place without John in it. He was always there for Ralph after he had his stroke and never forgot their friendship. He watched golf with him every week while he was in the hospital, even while he was in a coma. He came to our house to take him golfing before I even thought it was possible, even though his right side was partially paralyzed. Who does that? John White, that's who. He was the best kind of friend anyone could ever hope to have and he will be missed dearly.

- Christie and Ralph Sainsbury

So sorry. John was one of my favorites at o.c Tanner!
