What a beautiful and loving woman your mom was! Sending love to Becky and all her family at this tender time of great loss. I know she will leave a big hole in your lives, but what a blessing to have had such an amazing mother.

- Rebekah Barton

Hello Fisher Family, I so love your mom, Judy! She was such a kind example and loving inspiration to me as I grew up. She took care of me at some of my hardest times when I was quite young. She was always loving. Even when she was less than happy with my difficult behaviors, I never felt judged and never doubted she cared for me. She was just that way. I often looked to her example as I raised my own kids. What an amazing legacy of love she has left here! She will always be loved and missed!

- Robyn Ridd

The Linder family sends its hearfelt condolences over the loss of dear Judy. Growing up, Judy was always so kind to me. I have a soft spot for her in my heart and memories of her beautiful smile and spirit. I hope that all the amazing memories and foundation of who your mom was carry you through this difficult time.

- Kristin L

Judy was a very special friend, and we will never forget the love and friendship we shared. We became friends while serving with her and Jack in the Inner-City Mission, which was challenging but oh so rewarding for the compassionate service provided under Judy and Jack's leadership. We cherish the memories of our dear departed friend, and offer our condolences to her family.
