Sending thoughts and prayers to the whole family. Julie Will truly be missed. A part of our family since I can remember. Love you Julie ♥■

Julie and her sibs were my only first cousins. My first thought at hearing of her passing was her great and hearty laugh; and it made me smile. She was such a joyful soul, and passionate about her family, work, and faith. Her happy worldview was evident even as we played together as children, and it continued throughout her life. Julie will be sorely missed, and long remembered.

I'm going to miss you Jules. You were my best friend besides my sister cousin. As I look at the pictures of you, you truly are your aunt Florence's daughter /niece. ■personality as well. As I've told you many times. You are definitely her clone. We are definitely related. ■

- Georgia

Everyone who knew Julie will always remember her beautiful smile, cheerful laugh and endearing love of others. While living in California, two of Julie's triplets cousins were friends/neighbors and we shared so many funny Julie stories. Truly the best of the best!!♥■

I owe so much to Julie. She was one of my supervisors at Valley Mental Health, and she took me under her wing and taught me so much. She was always very optimistic and played such an important and positive role in my life, and the lives of the many young people we worked with. One of my favorite things about Julie was her laugh and

her smile. I am so blessed to have been able to work with and know Julie, and am forever grateful to her for her kind and generous spirit. Rest In Peace and Power, Dear Friend! Sending all my love and prayers to Cody and Casey, and the rest of the family.

My best wishes to the Kuhn/Henderson family. This is a sad loss, but Julie was ready to go - despite our unwillingness to let her go. My life was much richer by having Julie in it. I will miss particularly her sense of humor.

Julie was a force of nature, a bright light, and the most empathetic and loving of people. The last time I spent some time with Julie was around 45 years ago and I know with a certainty that those qualities never changed and only increased. If I close my eyes and think of her Oh that LAUGH !!!
