I was lucky to get to know Karen the last few months of her life. She brought instant joy to me as she became my friend. I enjoyed reading her obituary so I got to know her better. May Mindy and her family cherish the memories you had with her. My sincere prayers to you

"There are some who bring a light so great to the world that even after they have gone, the light remains." -Anonymous Carmen and family, I am so sorry for your loss. No matter how prepared you think you may be, losing a parent is never easy. But time and remembering all the love you shared helps. May you find comfort in the memories of your beautiful mother

Karen,Deon and myself were best friends in our single days. We'd go to seminars and we were always together trying to figure out men. We never did figure out them but we did decide that women were pretty smart cookies. We'd meet places and have a bite to eat together. I miss those happy days. Yes us single girls were pretty happy. I always thought Karen was the smart Credit Manager. Deon was the easy going government employee. Deon always had something new to tell us. We all cherished each other. Even though I didn't stay in touch with my two friends I always valued all our younger days together. Karen you and Deon were the two I looked up to. Sending all my love to you both. Love Koreen Stewart

I really enjoyed visiting with Karen and Klaus at our family reunions in Reese River Valley, Nevada. I watched the Zoom service and it made me think of our two visits in Sedona while my husband and I lived there. I remember Karen mentioning how much she liked Sedona. The service is truly a great memorial to Karen.

I just learned of sweet Karen’s passing. She lived a couple doors down from my grandpa and was always stopping in and visiting. She would often ask me if we could sneak out of there and do something fun. My grandpa would push her down the hall in the walker all the time ■ super sad loss! Prayers to your family!
