Dearest Kathy was a great friend and neighbor from the first moment I met her in 1983. We did so many great and fun things together. She was wise and thoughtful. She became a 2nd mother to my 3 daughters after my divorce. (Allie, Lindsey & Shelby). I will forever be in her debt. Love you Kathy!

Dear Mike; I just learned of Kathy's passing. I am saddened to hear such news. She was a wonderful person-so kind and fun to be around. Your family will be in my prayers. We have worked together for so many years, that I feel that your family is part of mine. As we started our early lives together and grew into middled age teaching teens, it is hard to think that we now are approaching the time when we will pass on to the next chapters of our lives. Kathy is leading the way. Dear friend, I treasure all of the interactions that I have had with you and your family. Know that I am thinking of you and your wonderful family at this time.
