I always loved you bro, you are one of the realest kids I have ever met and you will be missed so deeply! I hope you’re pain free and soaring high above watching down and protecting all the ones that loved you! I’ll see you later keat! Love you

Keaton was a good and true friend. When I was brand new at Brighton high he made me feel like I fit in. I'm so sorry for your loss.

- Florida Andrews

Our hearts are occupied with thoughts of you and your family. I wish I had the words to assuage the pain. May Peace be with you.

My heart breaks to know Keaton has passed. He was one of my special kids that I will never forget. I do know he is not in pain anymore. He has the peace he was trying to find now. It was my honor to know him all thru high school in my PAWS class. You are all in my prayers. Please know, he will never be forgotten. Sincerely, stephanie Isley

Broke my heart to hear about Keaton's passing. Keaton was a huge part of our family for years. He was always part of "my boys" the group of boys who always loved at my house. Always tried to keep tabs on him through his friends, regret now not reaching our myself. Have peace Keaton you are loved.

This is heartbreaking ■ I really used to enjoy talking to him he was a cool funny young man, as I used to drive the kids that lived up in The canyon to and from school back in 2019, I'm so sorry for the family's loss our deepest condolences go out to everyone who loved him.

- Sophia

He was always the sweetest. He defended me when I was getting bullied. He was kind of part one of the popular groups, but that never stopped him from being nice to everyone. He is missed by many.
