I am so sorry for your (our) loss. Your remembrances of your dad is exactly how I remember him when we were young! We used to have such fun together, I’m just sad that we all lost touch. Many sweet blessings to you al■

I worked with Kenny for a few years at inter mountain glass during high school and after we graduated. He was always happy and was always smiling. I enjoyed going out on jobs with him because it was never dull. I was sad to hear he passed but pleased that I got to know him.

Kenny and I were childhood friends and neighbors. As I have spent very little time in Utah after High School, I am just now hearing of Kenny’s passing. I would have loved to have known him as an adult. I want to offer my heartfelt sympathy to Kenny’s friends and family. Rest in peace old friend.
