I'm so so sorry for your loss. I remember visiting Kyna and Brecklyn when they lived with him and he was making some kind of meat in the crock pot and he offered me some as soon as I got to their house. I believe it was venison..it tasted so good and every time after I came to visit he seemed to have some kind of meat cooking in the crock pot and always knew I wanted some...Lol. I wish I could be there to give you all a BIG HUG. I love you all. Deepest Sympathy and Love from my family to yours.
