I am so sorry to hear of the passing of your beloved father. My thoughts and prayers are with you at this time. I share your sorrow in the passing of a loved one. I love the twinkle in his eye. May the Lord bless you at this time with peace and comfort.

To the family of Kenneth Leon Gerber. Please allow me to tell you I morn with you but I also rejoice for Kenny. I have many fond and tender memories of Kenny especially from working with him at Beehive. He always was the best Santa ever because he was so happy. I know what sorrows and longing that death brings but I also know that it is only temporary. The reunion of eternity will make you remember He has graduated to a new phase and still will be there for you when you need him. Honor you father, grandfather and brother by being true to the name Gerber. Love from Aunt Karen

My condolences to all the Gerber family at this time of your separation from your Kenny. I had the pleasure of working with him for many years at Beehive Clothing, where I got to learn of his goodness and loving nature, and his helpful attitude. I loved the way he talked about his family; and since our retirement, seeing his facebook posts about his family members was always a delight. I wasn't a plumber, but we often got to work together, and I grew to love him very much, and felt we had a lot in common (not just the fact we both had daughters named Charity!) He had a big heart--full of love. I'll miss and remember you always! And thanks for letting me wear your Santa Claus suit that one time: What an honor! May God bless you Gerbers with comfort and a firm knowledge that His promises are sure, His rewards are everlasting, and reuniting with loved ones on the other side of the veil is a certainty.

We know you will miss him. I have fond memories of him growing up. It's been years since Ive seen him and since we live so far away, we haven't been able to meet many of you. Know we love you and our prayers are with you and your families. What a joyful reunion he is having. Love your cousin, Cynthia (Berrett)
